

EDUCATION

University of Toronto | September 2018 - November 2023

Bachelors of Arts, Architectural Studies

Langara College | September 2016 - April 2018

Associate's Degree, Computer Science

TECHNICAL PROJECTS

(<https://kingbo-jan.github.io/kbjn-cybersecurity>)

Wireshark

Captured packets using tcpdump before importing to Wireshark to analyze further

Firewall Reconfiguration with Python

Built a python script to filter out specific malicious incoming traffic

SIEM with ElasticCloud

created a log monitoring incoming traffic with alerts via Splunk

CERTIFICATIONS

Google Cybersecurity Certificate

IC2 Certified in Cybersecurity (CC)

GRC Mastery

Microsoft Azure Fundamentals

CompTIA Security+ (Expected 12/13/2024)

EXPERIENCES

Mastercard Cybersecurity | Forage - August 2024

Cybersecurity Intern

- Helped identify and report security threats such as phishing
- Analysed and identified which areas of business needed more security training

Telstra Cybersecurity | Forage - October 2024

Cybersecurity Intern

- Responded to malware attack
- Analysed the attack and mitigated the attack using Python

AIG Shields Up | Forage - October 2024

Cybersecurity Intern

- Researched and understood reported vulnerabilities
- Drafted email to guide teams on vulnerability remediation
- Created a Python script for ethical hacking, bruteforcing decryption keys

SOFT SKILLS

- Attention to detail
- Easily adaptable
- Eager learner
- Problem Solver
- **Languages:** English (Native), Mandarin (Native), French (Intermediate), Hokkien

TECHNICAL SKILLS

- Python, HTML, CSS, Javascript
- Wireshark, Splunk
- Linux, Mac, Windows
- Microsoft 365, Teams
- Microsoft Azure
